CDT-EI

EPSRC CENTRE for
Doctoral Training in Embedded Intelligence

Please complete the details for your PhD Project proposal in the boxes below, and return the completed form via E-mail to CDT-EI@lboro.ac.uk

Project Title	Industrial Partner(s)

Supervision Details

First Supervisor Name	Industrial Supervisor
First Supervisor Department	Industrial Supervisor Department (if known)
First Supervisor E-mail	Industrial Supervisor E-mail
First Supervisor Contact Number	Industrial Supervisor Contact Number
Second Supervisor Name (if known)	Third Supervisor Name (if applicable)
Second Supervisor Department (if known)	Third Supervisor Department (if applicable)

Fit the CDT-EI Themes: Please tick all relevant to topic area.
More details are available on our website.

Application Engineering	Design for EI
Intelligent Software	Manufacturing Solutions
Packaging and Interconnect	System Services
Other	

Project Details

Overview of Project: This text may be used for public dissemination e.g. advert and website, please do not include sensitive information

Project Aims and Objectives

Beneficiaries: Which sectors/companies will benefit from this piece of work?

Proposed Methodology e.g. sample collection, lab experiments, programming, simulations

Further Information e.g. related reading material, references and useful links for this area of study

---

Student Details

Student Specification e.g. essential and desirable skills and or knowledge required for the post
