# CONNECT

**Tuesday 17th February 2015 from 4pm to 6pm**
**Holywell Park, Loughborough, LE11 3GR**

**CDT-EI**
EPSRC CENTRE for
Doctoral Training in Embedded Intelligence

- Do you have a research challenge or idea but lack the expertise or resource?
- Would you like to have a PhD student dedicated to a topic relevant to your business needs, and supported by a world-class training scheme?
- Does your company want to invest in future talent for your sector?

The EPSRC Centre for Doctoral Training in Embedded Intelligence invites you to '**CONNECT**', a unique event that will

- introduce you to our industry-led PhD programme
- allow you to discuss areas of interest and expertise with our academic staff
- explain how your company can benefit from co-sponsoring a PhD student

**How CONNECT will work**
Attendees will be asked to provide a 5 minute pitch about their company or sector and, either what they are looking for or, what they can offer. This will be followed by time for discussion and networking to broker companies with academics to identify complementary research interests.

**Design for EI**

**Packaging & Interconnect**

**Applications Engineering**

**Intelligent Software**

**Manufacturing Solutions**

**System Services**

**Our Research Themes**
This Centre addresses the challenges posed by technical needs ranging from the design stage, through manufacturing of embedded or on-bedded devices, to the software behind data collection, including integrative technologies, and finally to the requirements of end-users.
Companies already benefiting from the Centre come from a broad pool of markets and sectors, and include automation, automotive, aerospace, metrology, construction, food and chemicals.

**Starts 4.00pm, refreshments from 3.30**
**To Register visit by Friday 13th Feb**
